

Worksheet: Entrancing Entrances 1

Park entrances can influence your expectations of what the park is like.

Activity 1: Park entrances

Look at the two park entrances below:

- **Which one looks the most inviting?**
- **Which do you think was once the grounds of a big house?**
- **Do you think a park entrance is important?**

Look at the park below. What effect do you think having a park gateway would make to how it looks?

Worksheet: Entrancing Entrances 2

Activity 2: Design an entrance

Look at your local park.

- Does it have an entrance? If not, why do you think there isn't one? What impression does the park give by not having a gate or formal entrance way?
- How would you improve the entrance to the park? How could you make it more welcoming or help people to know more about the history or the facilities?

Design and draw your ideal entrance to your park. It could reflect how the park is used, the plants inside, the history of the area, or it could commemorate a famous modern person or event.
